

TOMORROW - IAEA-GIF Thorium Fueled Advanced Reactor Design Webinar. Register Today! Report to Congress on Ending China's Rare Earth and Thorium Dominance.

Gen-IV International Forum and IAEA Thorium Fueled Reactor Design Webinar

Tomorrow May 5th 7:00 AM - 9:30 AM (UTC-05:00) Central Time (US & Canada)

[Register Here](#) to join the IAEA-GIF webinar on the future of Thorium-Fueled Advanced Reactors. This [webinar](#) will be very informative on the outlook of Thorium utilized as a fuel in the advanced reactor space.

Speakers include

- Aslak Stubsgaard of [Copenhagen Atomics](#)
- Brittney Blackwood of [AlphTech Research](#)
- Ritsuo Yoshioka of [International Thorium Molten-Salt Forum](#)
- Armando Nava-Dominguez of [Canadian Nuclear Laboratories](#)

Register Today!

Agenda

- Establish a coherent body of knowledge about the thorium based advanced reactor designs and their use in achieving clean and green energy
- Analyze the current state of interest, research development, gaps, challenges and perspectives on thorium-fueled water cooled reactors including molten salt reactors.

New Report on Ending China's Rare Earth and Thorium Dominance.

A [comprehensive report](#) that addresses the root causes that have created the present critical material disadvantages for the U.S. and its Allies by detailing historical factors that triggered the rise of China’s REE industry and the failed historical attempts to reverse the imbalance. This report examines the many advantages employed to sustain this monopoly and demonstrates that the monopoly is designed to maximize China’s geopolitical advantage, not profits. With knowledge of China’s goals and advantages, this

report offers strategies and methods the U.S. Government may implement to counter these economic imbalances.

This report was compiled by 17 of the leading experts in the field including John Kutsch and Jim Kennedy of the Thorium Energy Alliance. The report has been presented to congress, Allied nations and other stakeholders effected by the disadvantages of China's economic policies. We ask you to please forward the report ([PDF download here](#)) to your members of congress and ask them to read and act on the achievable recommendations presented within.

Social Media Intern Needed - Contact the TEA Today!

If you or someone you know would like a summer internship to coordinate Thorium Energy Alliance's social media platforms contact us today. A social media intern would support the digital media staff to develop and implement outreach and promotional campaigns to boost TEA's outreach and online presence. The duties and responsibilities include:

Email admin@thoriumenergyalliance.com to inquire for this position.

Support the TEA today!

The Thorium Energy Alliance just received another car donation! Thanks to another generous supporter for another much-needed vehicle donation. Let us know if you'd like to donate a car or other vehicle to the cause.

Your generous support keeps us going. You can help in many ways including:

- [Donate](#) or Become a [Supporting Member](#)
- [Donate that old car](#)
- [Buy a shirt](#)

So grateful to everyone who has made all of our successes a reality. 2023 is shaping up to be the best Thorium Year yet!

John Kutsch
Executive Director
