Save MSRE Artifacts at ORNL

***SAVE the MSRE Artifacts - Our History is in danger of being destroyed.
The last of the U233 is on its way to being destroyed
The rarest material on Earth will be lost because of laziness and greed
of Lab operators***

One ally to bring attention to could be **Jeremy Hampshire – ANS Nuclear News.**

He has written some great articles about the value of the historic research data. Help us reach out to Jeremy JHampshire@ans.org and see if he will also promote the preservation of the artifacts in Nuclear News. Rick Michal is the editor-in-chief of Nuclear News; here is his e-mail: rmichal@ans.org. And here are two more contacts we could reach out to:

<https://www.ans.org/news/source-nuclearnews/>

<https://www.ans.org/pubs/magazines/nn/>

It is the beginning of a new year

Buy a t-shirt and stickers for the nerd in your life;
or even toss us some funding; or even donate your old car.

Support the TEA today!

BECOME A MEMBER!

Please consider becoming an annual member of the Thorium Energy Alliance; you can choose your annual (or monthly) contribution. Our members keep this organization moving towards a future of clean, safe and reliable energy.

[Donate](#) or Become a [Supporting Member today!](#)

We also have shirts, stickers, and videos for sale.

If you have a used car - you can painlessly donate that right on our site [HERE](#).

**So grateful to everyone who has made all of our successes a reality.
2024 will be the best thorium year!**

**John Kutsch
Executive Director**
