

Thorium Will Power The World

We have Caved In: Look for Us on Reddit, Instagram, SnapChat and even Tik Tok - and we are always on "X", Mastodon, LinkedIn, FaceBook.

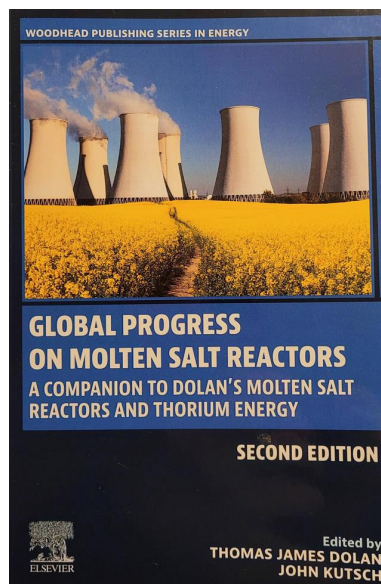

TEA is willing to go where the eyeballs are - and we have to let them know there is a future of prosperity & abundance, and they can get it with thorium power and critical materials - this is the 1,000,000X solution the world needs.

The NEW Global Progress on Thorium MSR Book - Got it Done!

We are so proud of the work that Thomas Dolan and Thorium Energy Alliance did to help get this new book follow up to the MSR Handbook. Vince Lackowski of T.E.A. put in lots of effort to help organize the massive effort and get all the International participants to work together. **We will present this Book at TEAC12** and give away a copy of this valuable book at the upcoming conference

You do not want to miss this historic event at TEAC 12

Below is the ECOMODERNIST Video Podcast

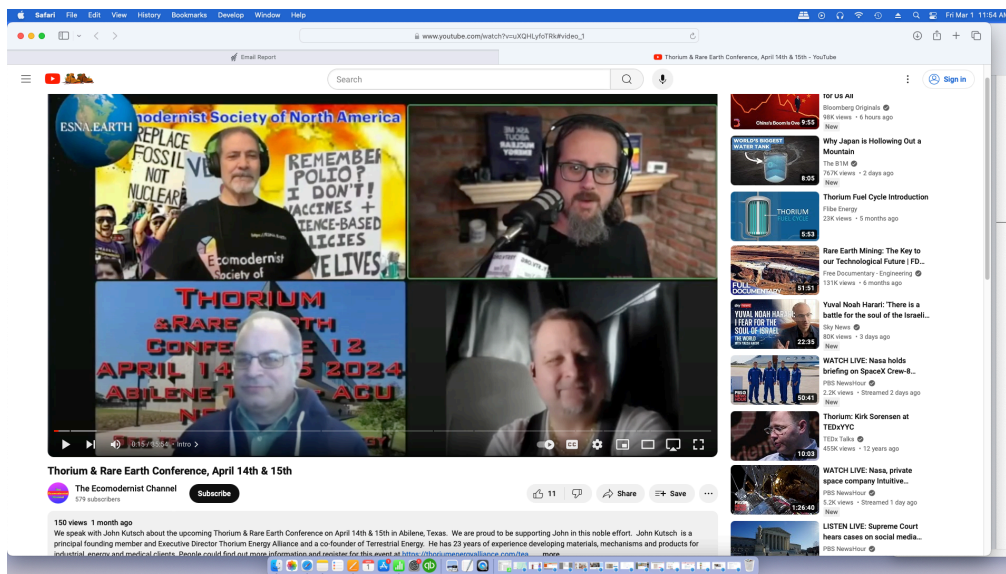

CLICK IT! - it is a long interview explaining the opportunities to solve problems, RIGHT NOW.

about all we have to teach about making real change in the world.

We need to get a new generation in the fight for the real solution for Energy.

Thank You To Ecomodernist for the Great work they do!

Save MSRE Artifacts @ ORNL (We Beg You for Your Outreach to ORNL)

***We KNOW - This is a BIG ask - But for the future - PLEASE
SAVE the MSRE Artifacts - Our History is in danger of being
destroyed.***

***The last of the U233 is on its way to being destroyed
The rarest material on Earth will be lost because of laziness
and greed of Lab operators***

One ally to bring attention to could be **Jeremy Hampshire – ANS Nuclear News.**

He has written some great articles about the value of the historic research data.

Help us reach out to Jeremy JHampshire@ans.org and see if he will also promote the preservation of the artifacts in Nuclear News. Rick Michal is the editor-in-chief of Nuclear News; here is his e-mail: rmichal@ans.org.

And here are two more contacts we could reach out to:
