

Thorium Will Power The World

THORIUM is the future of Prosperity & Abundance

December 2025 Thorium News

Hope for a New Year | Pre-Audit After Effects | Energy Celebration - You're Invited

1.) We are a day away from 2026 - many of us never expected this revival of Thorium for Peace and Prosperity, Energy Abundance, and Materials Innovations to take any where near this long . . . **TEA will keep its promise to "power the world" with thorium.**

- it gives us hope for the Thorium fuel cycle, It gives me hope that with some luck and some investors who want to see a Thorium Future, it'll get done. While there is a lot of shenanigans running around about the rare earth junior mining sector, and the advanced reactor sector seemed a bit over hyped there for a moment, we think the truth will win out in the end - reality has a way of winning. We believe in **Stein's Law**, it was formulated by **Herbert Stein**, who served as the Chairman of the Council of Economic Advisers under Presidents Richard Nixon and Gerald Ford.

"If something cannot go on forever, it will stop."

We are confident that the west committing resources to things that do not work will stop, or it will be stopped for them

2.) Thorium Products Corps gets NRC Pre License Audit Summary

The NRC staff changed their agreement to work with us as a materials license, into a Mill license applicant. This is not what we wanted. There will be a time for a more complete explanation of the process, and why being declared a Mill is not accurate and will set us back.

The Pre License Audit Summary pointed out some areas that we can live with enhancing, but many points brought up only apply if we continue to be mislabeled a Mill. We know you very smart supporters of our work understand how one word makes all the difference in these things. We have every confidence that we can correct this.

As we reported out last time, **TEA and TPC** have assembled a complete and well crafted license application for both a Demonstration facility and a Full production facility. We have identified all the engineering and regulatory professionals needed for this project, and we have greatly exceeded what is required by NRC - this should be resolved soon.

Clean Core Thorium Energy CCTE - continues to kill it. With great support from their license with the NRC this past year, and great progress with CANDU reactors around the

world enthusiastic for their ANEEL fuel bundles because of their huge efficiency gains, we know 2026 will be great for them. It will be a lot better if we can supply them with thorium oxide. It is very important that the T.P.C. help this USA company supply the world with fuel.

Disa is a company that gives us hope - they aim to process Uranium tails and leftover ore stacks, and they have gotten their license in just 6 months (!) - it shows it can be done - and TEA / TPC will get it done.

3.) AGAIN - Energy Wealth Project to Celebrate Energy and Stem August 7th 2026

Our sister organization, Energy Wealth Project, is having a combined fund raiser and celebration on **August 7th 2026 at the Raue Performing Arts Center in Crystal Lake II USA. Doors open at 6PM, Bands Start at 7PM**

E.W.P. promotes advanced energy systems as way towards opportunity, prosperity and funding education.

We know this is not quite a Thorium TEAC conference - (We are not even sure we can pull off even a day long briefing for T.E.A. projects, we're trying) - and we know coming to suburban Chicago might not be the best vacation, but, know that we would love to see some Thorium Fans in the crowd with Energy Wealth Project.

August 7 in Crystal Lake, Illinois, USA at the Raue performing Arts center

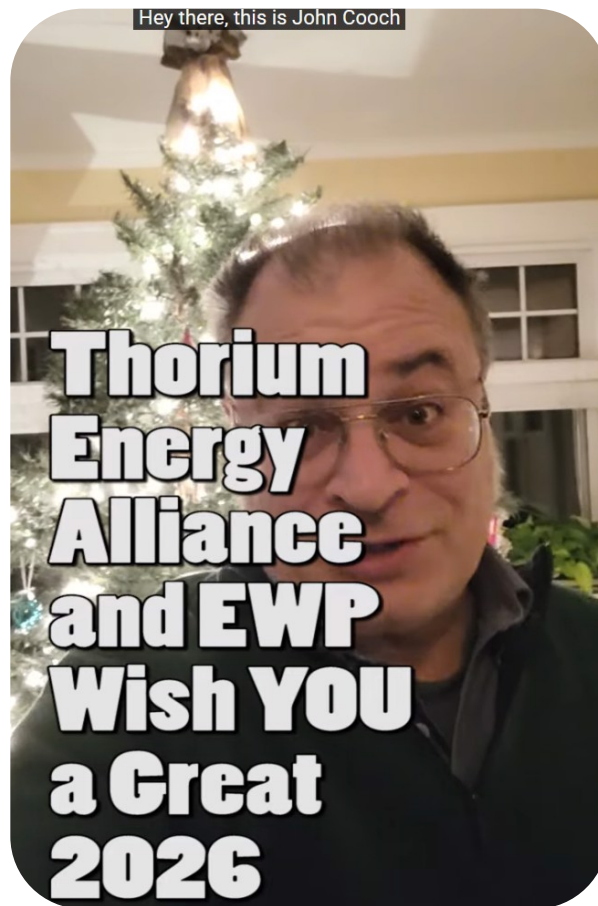

The Great artists playing are [Robbie Fulks](#) & [Griffin William Sherry](#) , drinks, food! and you'll get to hang with the best thorium folks!

Your basic tickets will be cheap! \$36 all in price, Taxes all of that ! (Once Available) so please, drop the organizers a line and let them know you want to attend, and they will put you on the reservation list:

dinaworldone@yahoo.com , skutsch@gmail.com

REQUEST - Anyone out there know a forensic accountant that will work with non-profits?, we want to audit our last returns with our old accountant, make sure we start 2026 right !!!

BELOW, is a link to a nice holiday and New Years wish from John Kutsch to you all. There are a few versions of it floating around - so enjoy - it was a real fun 2025. Despite all the folderol - 2026 can and will be much better!

ORNL Still Wants to Destroy the MSRE Artifacts.

We Still Need Folks to Keep At it ! The company tearing apart the MSRE building just wants to throw out everything ! Including stuff already on display ! - The Albuquerque Nuclear Museum, a Smithsonian Institution, has said they would take everything! This is a no brainer we have been fighting to correct for over 10 years. *We need just one more volunteer to help us save the MSRE artifacts, please help us at your service. Replace this text with yours. (volunteers, Please bear with us , we are working to onboard everyone)*

You Can Donate Anything that moves - It really Helps! TEA

We Got a VOLT DONATED !!!

We want your car, plane, boat today - donate that vehicle! Thanks to all donors

[CLICK THIS TO DONATE YOUR CAR, BOAT, PLANE](#)

**Buy a T-shirt and stickers
for the nerd in your life
Support the TEA today!**

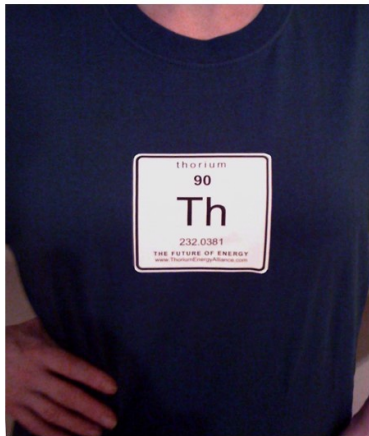

COOL PEOPLE BECOME A MEMBERS !

Please consider becoming an annual member of the Thorium Energy Alliance; you can choose your annual (or monthly) contribution. Our members keep this organization moving towards a future of clean, safe and reliable energy.

[Donate](#) or Become a [Supporting Member today!](#)
We also have shirts, stickers, and videos for sale.

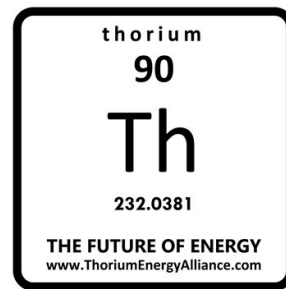

If you have a used car - you can painlessly donate that right on our site [HERE](#).

Donate \$7 Get Our Sticker Pack
Donate \$35 Get Our T-Shirt

Thorium Will Power The World

**Thanks to
