

**Thorium Will Power The World**

*THORIUM is the future of Prosperity & Abundance*

## **March 2026 Thorium News**

**1st Quarter | NRC Wrestling Match | Energy Celebration - You're Invited**

**1.) We are approaching the end of the 1st quarter of 2026** - If you believe in the possibilities of a Thorium future, you are absolutely an optimist, a futurist, a person who sees a future of vast opportunity and abundance. We are supporters of an element that makes the clearest glass, the most robust ceramics, the strongest most conductive metals, the most effective nuclear medicines - and the most abundant energy source in the universe, that we get for free from rare earth processing . . . we work at this for decades, because in the end - WE WILL WIN - the truth can not be held back forever! We were meant to have what Thorium promises, and we will pay the price to make it a reality so that humanity can have 10,000 years of near endless possibilities that this plentiful, modest, simple grey metal offers to us.

### **2.) Thorium Products Corps still working with the NRC on licensing .**

The sad news is that we have not resolved the fact that the NRC staff changed their agreement to work with us as a materials license, into a Mill license applicant.

TEA and the Thorium Products Public Benefits Corporation have engaged the best lawyers on earth to resolve these issues. But, they are still unresolved - an so - we continue to work on this.

WHY?

The flat and simple fact is that no matter the need, no matter wars, no matter the cancers and food shortages that will come from NOT solving the actinide issues, If we do not come up with a means of providing the Thorium the world needs, then world also does NOT get any other rare earths - you do not get RE without thorium.

You are a member of TEA, so you know this. We need hundreds of examples of how the world suffers because of unfounded fears and superstitions causes untold suffering, danger, loss of national security, - the cost in lives and jobs and industry will make our world a far less prosperous and innovative place. We need your examples.

If we do not get this solved, finally, after years of effort, Our children will look on in wonder at our societies astounding ignorance and cowardice.

We are doing this to ourselves - no enemy has done this to us, We continue to do this to ourselves. We finally fix this, and we can be delivering materials in just 9 months!!!

So, The good news is: We are close to getting all of this resolved for TEA and society. We have identified all the very best engineering and regulatory professionals needed for this project, and we have addressed all concerns ever raised by anyone who has reviewed our work, and we have greatly exceeded what is required by NRC - this should be resolved soon.

**3. A.) Energy Wealth Project** is our revived effort to communicate that if we have a wealth of energy there will be an abundance of opportunity for future generations.

We want to reach out with a refined mission to help Students and young professionals choose to work in the Energy sector, and especially to work in nuclear energy, and all the allied professions, from the mine to transmission of power and how one generates that power. ( as well as materials, medicines, and all the technologies made possible by the nuclear supply chain ).

We are asking you, our members, to give us your ideas about how best to inspire this cohort of young people, and let them know they are needed and supported.

**3. B.) Energy Wealth Project (EWP) Celebrates Thorium Energy August 7th 2026 !**

Our sister organization, Energy Wealth Project, is having a combined fund raiser and celebration on **August 7th 2026 at the Raue Performing Arts Center in Crystal Lake II USA. Doors open at 6PM, Bands Start Right at 7PM**

**E.W.P.** promotes advanced energy systems as way towards opportunity, prosperity and funding education. Spread the word.

**August 7 in Crystal Lake, Illinois, USA at the Raue performing Arts center**

The Great artists playing are [Robbie Fulks](#) & [Griffin William Sherry](#), drinks, food! and you'll get to hang with the best thorium folks!

Your basic tickets will be cheap! \$36 so please, drop the organizers a line and let them know you want to attend, and they will put you on the reservation list:

**TEA Insurance loss & Solar Law suits BELOW**, is a link to a couple minutes of John Kutsch talking about how the fight is not over to get nuclear accepted. TEA has had its insurance canceled (!), and while we try to get new insurance, we see everyday in our home state and county, lawsuits to force communities to let developers build solar and wind. In Illinois and several other states, it is illegal (!) to deny permits for solar and wind farms - an obscene injustice. Let us know what you think can be done to fix this.

---

**Thorium Energy Alliance** was at **SME Mine Expo** trying to get the industry to think more about actinide by-products of mining and what the opportunities are for recovering Thorium and Uranium. Informed them there is a desperate need, especially for Thorium

---

**ORNL Still Wants to Destroy the MSRE Artifacts.**

**We Still Need Folks to Keep At it !** The company tearing apart the MSRE building just wants to throw out everything ! Including stuff already on display ! - The Albuquerque Nuclear Museum, a Smithsonian Institution, has said they would take everything! This is a no brainer we have been fighting to correct for over 10 years. *We need just one more volunteer to help us save the MSRE artifacts, please help us* at your service. Replace this text with yours. ( volunteers, Please bear with us , we are working to onboard everyone )

---

**You Can Donate Anything that moves - It really Helps! TEA**

**We Got another SUV DONATED !!!**

We want your car, plane, boat today - donate that vehicle! Thanks to all donors

**[CLICK THIS TO DONATE YOUR CAR, BOAT, PLANE](#)**

We Got A Volt Donated

**Be The First Buy a T-shirt and stickers  
and Mention "BOOK" in the Order  
and we will give you a copy "RAD FUTURE"**

**while supplies last**

**Support the TEA today!**

**COOL PEOPLE BECOME A MEMBERS !**

Please consider becoming an annual member of the Thorium Energy Alliance; you can choose your annual (or monthly) contribution. Our members keep this organization moving towards a future of clean, safe and reliable energy.

[Donate](#) or Become a [Supporting Member today!](#)

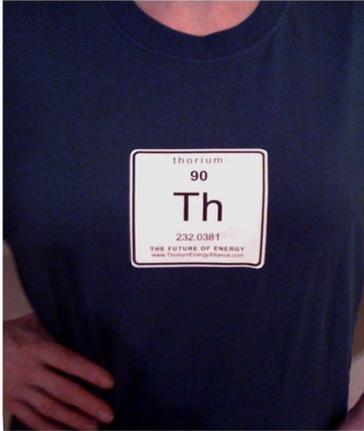

We also have shirts, stickers, and videos for sale.

If you have a used car - you can painlessly donate that right on our site [HERE](#).

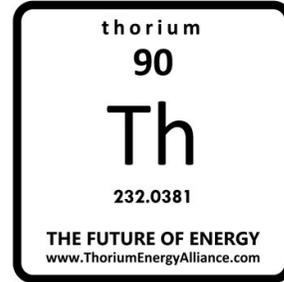

**Donate \$7 Get Our Sticker Pack**  
**Donate \$35 Get Our T-Shirt**

**Thorium Will Power The World**

**Thanks to  
Thorium  
Members  
Support!  
Great Work!**

---

Everyone who has made all of our successes a reality.

You Keep Us Committed to this work - 2025 has been a great thorium year so far !

WE CAN'T WAIT FOR 2026

**John Kutsch**

**Executive Director**
